Answer: Do you speak English or French?

My Favorite Place

My favorite place to visit is the public park near my house because it helps me feel peaceful and refreshed. The tall green trees provide shade from the hot sun, and the grass is soft and cool beneath my feet. Birds sing beautiful songs in the morning, and the fresh air smells like flowers and nature. I enjoy walking along the stone paths, but sometimes I sit on a wooden bench to watch children playing happily. The park has a small lake where ducks swim gracefully and search for food that visitors bring. I often bring my camera so I can take pictures of the beautiful scenery and keep memories of my time there. Overall, the park is a wonderful place where I can escape from daily stress and connect with nature.
